Deadline for Visas: February 21, 2006

- With proven oil reserves at 36 billion barrels, the Libyan Government wants to increase oil production to 3 million bb/d by 2010. More than US\$10 billion in investment is required to reach this target: US\$6 billion for Exploration & Production activities and US\$4 billion for refining and petrochemical plant development.
- Libya's proven gas reserves amount to 46.4 Tcf; potential reserves are as high as 70-100 Tcf.
- Contracting services and construction materials will be required in the coming years to support major road, large-scale office complex, hotel, and residential housing projects. A US\$130 million oil field infrastructure project was recently awarded to Cypriot contractor J&P, which is actively soliciting expressions of interest from U.S. suppliers.
- Benghazi Medical Center, 1200-bed facility, recently announced a US\$120 million tender for advanced imaging equipment, basic supplies, furnishings, etc.
- A rapidly growing market for educational exchange programs, school supplies and tools related to school administration.

When: April 2 – 12, 2006
